Live an Extraordinary Life

Houston, TX – John Assaraf, best-selling author of *The Answer* and *The Complete Vision Board Kit* will be featured on Total Career Success, an Internet show on VoiceAmerica Talk Radio Network, at 11 a.m. Central on Monday, June 1. The show is designed to inform and encourage listeners to achieve their career goals by featuring experts and business leaders to provide advice on job search and career advancement. John Assaraf is not only a successful multi-millionaire entrepreneur in real estate, internet technology, and consulting, but he has researched the underlying principles of success and teaches others how to tap into the same success he has achieved. His passion for brain research and quantum physics led him to discover the natural law of attraction and the power of thought, belief, visualization and affirmation to create one's dreams consciously and sub-consciously. If you want to get to the next level in your business, overcome a pattern of failure, find a new job or start a new business, tune in to learn how you can retrain your brain to succeed in just 7 minutes a day.

Research has shown that 98% of our thoughts, perceptions and behavior are the result of the way we are programmed on a non-conscious level. Only 2% of our perceptions and patterns of behavior are conscious. John Assaraf points out that “we may think we are in control, but it is our subconscious that is really in control.”

Show co-host Sheryl Dawson shared, “John Assaraf doesn't just tell you what to do, he has done it! If you do not like the results you are getting, then you need to change what drives your perception and behavior. John will share how to develop your mindset for success.”

Co-host Ken Dawson added, “When you stop limiting yourself by where you have been or where you are and begin to think about and focus on where you want to be, all of a sudden your potential becomes unlimited. Visioning and visualization is not about day dreaming, but about realizing what you are willing to commit to. John balances the science of visualization with the practice of taking the right steps to achieve your vision.”
